(Member Since 2014)

BIOGRAPHY

As a Digital Media Design student at Miami Arts Studio 6-12, I aspire to be a Graphic Designer and a future executive. Throughout my years at MAS 6-12, I have been industry certified in Adobe Illustrator and Adobe Photoshop, as well as awarded "Excellence in Technical Production" for four years in a row and "First Place" in Miami-Dade County Fair's photo restoration competition in 2016. In addition, I won All Florida for Best Special Effects Photo and Excellence for The Walt Disney Company Infographic I made. I have found a passion for graphic designing; which, is why I plan to work for a corporation's graphic design team as I aspire to be a Creative Director. When I think of my near future, I am pleased to say that I have begun my education at the University of Central Florida as a member of their L.E.A.D. Scholars Academy. The fields of study that relates to my projects include graphic design, advertising, digital animation, film, marketing, and business administration. No matter the challenge given to me, I strive for the best and I am open to learning. I takes criticism as a means to improve.
