To Whom It May Concern:

Delaila Garcia embodies all the qualities and characteristics we want our students to graduate with. She is driven, kind, compassionate, talented, and humble. Since beginning the Technical Production magnet, she has been the leader of the group. She leads by setting the example with her work ethic and ability to meet deadlines. She leads because she is kind and understanding. She leads because she shares the successes with her classmates. She leads because she understands how to collaborate with others and ensure everyone is given a voice. If you are able to speak to her magnet teacher Mr. Pate, he will tell you that Delaila is the student he uses as an example for others to emulate.

As a new magnet school, Delaila has been one of the key students that has helped establish our programs. Aside from winning numerous awards for her designs, she volunteers countless hours at the school throughout the entire year. You will see her volunteering her time to assist teachers, tutor students, design promotional material for our school, and work with the magnet department on any performances that need assistance. When we say our school is a family environment, we think of students like Delaila and the amount of time they spend at our location.

On occasion, Delaila and I have spoken about her future plans. Her focus and dedication to achieving her career goals makes me one of her biggest fans. On a recent career workshop trip to a business that aligns to Delaila's goals, she has been proactive in trying to secure an internship. That drive and persistence has impressed that company and they have guaranteed to offer her one of their prestigious internship positions as soon as she is enrolled in college. It is that type of planning and understanding what is needed to succeed that will ensure her future success.

At this school, we are proud to recognize Miss Garcia for her efforts as Treasurer of Interact and Graphic Designer for the Social Studies Honor Society and AGAPE Bible Club. When I think of greatness and seeing a bright future unfold, I think of Delaila Garcia. She truly encompasses everything we want from our future leaders. We know your educational institution will be impacted in a positive way with her on campus. Please feel free to call me should you need more information on Miss Garcia.

Sincerely,

Miguel A. Balsera, Ed.D.
Principal
